

## The Briefing

May 2024

Featuring: **Ellie Bouhadana, Julia Tellidis & Lauren Skora, Shankari Chandran, Erin Gough, Tim and Emma Flannery & Xavi Ramiro**

DRAFT COVER

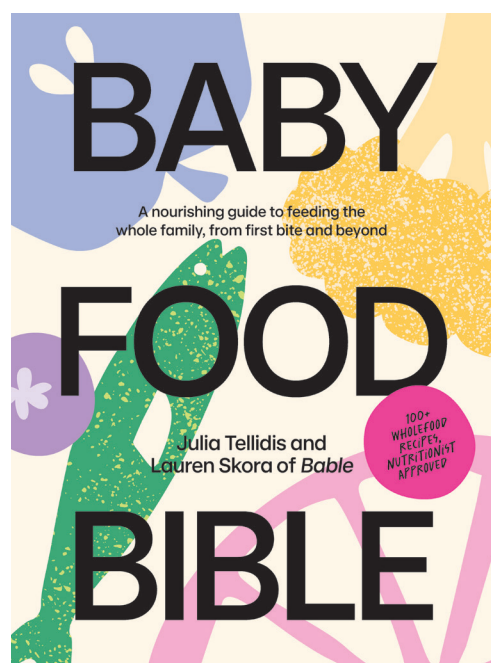

Dear Booksellers,

Cater to every taste and curiosity this month with these titles from Hardie Grant!

Eat through Morocco, Israel and the Mediterranean with acclaimed self-taught chef Ellie Bouhadana in her debut cookbook, *Ellie's Table*! Part recipe book, part journal, this beautifully illustrated cookbook is an extension of Ellie's food ethos and includes all the recipes close to her heart. From her family's rugelach recipe to her infamous focaccia, *Ellie's Table* celebrates eating well, eating seasonally and most importantly, eating together. Learn how to eat with your baby using over 100 nutritionist approved recipes from *Baby Food Bible*! Take the fuss out of introducing foods to your baby as Julia Tellidis and Lauren Skora walk you through recipes that the whole family can enjoy, all with explainers that cover food safety, choking and how to safely introduce common allergens.

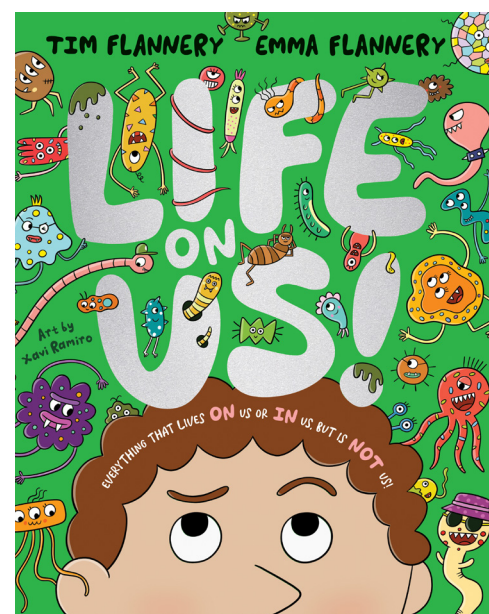

DRAFT COVER

From Ultimo Press comes *Safe Haven*, the new novel from the Miles Franklin Award-winning author of *Chai Time at Cinnamon Gardens*, Shankari Chandran. *Safe Haven* is about displacement and seeking refuge—but ultimately it is a story about finding home—and the length you'll go to find safety and love.

Part thriller, part queer romance, *Into the Mouth of the Wolf* is the stunning, long-awaited new YA novel from the award-winning author of *Amelia Westlake*. Iris and Lena are complete strangers, but when their community is hit with a series of mysterious deaths and disappearances, the two girls find themselves caught up in the search for the truth. This gripping small-town murder mystery is a devastating exploration of how to reckon with climate change: what can we do when it's too late? Tim and Emma Flannery also make a return with *Life On Us*, a first-of-its-kind exploration of everything that lives on and in us, but is not us! Get ready to learn all about our amazing microbiome and the trouble-making germs and parasites you won't like to host.
